

Rejuvenate

Advanced minimally and non-invasive treatments designed to improve skin laxity, texture, and facial contouring.

FORMA

Non-invasive skin-tightening and firming

FORMA FACIAL

Treat the full face focusing on the eyes, forehead, naso-labial folds and the jowls. Ideal for addressing multiple areas of concern with a gentler approach than the targeted Forma session.

You can choose from a full face or the neck.

FORMA TARGETED TREATMENT

A Forma targeted session focusses on a bilateral treatment area to really focus on and treat. Pick from either the eyes, forehead, naso-labial folds and the jowels, submental or neck. This is the perfect solution if there is one problem area that you want to treat and focus on.

Six weekly treatments is highly recommended for best results.

MORPHEUS8

Minimally invasive skin-tightening, contouring & fat burning

FACE AND/OR NECK TREATMENTS

Morpheus8 is a cutting-edge fractional treatment that combines microneedling with radiofrequency (RF) energy to remodel and contour the skin at a deeper level. Unlike traditional microneedling, Morpheus8 penetrates beyond the surface to target the dermis and subdermal layers, stimulating collagen and elastin production for firmer, smoother, and more youthful skin. This FDA-cleared technology is effective for improving skin laxity, fine lines, acne scars, and overall skin texture—making it ideal for the face, neck, and body. With minimal downtime and long-lasting results, Morpheus8 is a clinically proven solution for comprehensive skin rejuvenation.

Three treatments every 6 weeks is highly recommended for best results.

Restore

Target unwanted hair, pigmentation, and vascular lesions.

DIOLAZE xl

Fast and effective laser hair removal

LASER HAIR REMOVAL

Advanced laser hair removal with built-in cooling technology for a more comfortable experience. Using a diode laser, Diolaze safely and effectively targets the hair follicle to reduce and permanently eliminate unwanted hair at the root. It's ideal for treating larger areas like the legs, back, and arms, as well as more sensitive zones such as the face, bikini line, and underarms.

Complete reduction of hair will require multiple sessions.

LUMECCA

Intense Pulsed Light (IPL)

IPL PHOTOFACIAL

Get that glow on. We use Lumecca IPL to improve skin tone and texture, finishing with a gentle cleanse, mask, and ZO® serums to leave you glowing and event-ready. This facial is perfect to get you ready for a special event or even a date night.

LUMECCA TARGETED TREATMENT

A non-invasive light-based treatment that targets sun damage, age spots, redness, and uneven skin tone. Intense Pulsed Light (IPL) penetrates the skin to break down pigmentation and stimulate collagen, revealing a clearer, more even complexion with minimal downtime.

A targeted treatment will cover multiple passes with the focus on eliminating dark pigmented spots and redness.

**Multiple sessions may be necessary to achieve desired results.*

Signature Facials

ZO® GLOW

Our most popular facial. Renews and revives skin. Using ZO® medical grade products, the simulating combination of citric, glycolic and lactic acids brighten skin, reduces fine lines and improves overall skin tone and texture.

EXPRESS FACIAL

Short on time? This 30-minute express facial is perfect for a quick lunchtime refresh, using glycolic, lactic, and citric acids to brighten and smooth your skin.

ANTI-AGING FACIAL

Designed to reduce the visible signs of aging caused by environmental and intrinsic factors, this facial targets fine lines, dullness, and uneven skin texture to help maintain a youthful-looking complexion.

ACNE TREATING FACIAL

The ZO® Acne Clarifying Treatment involving a sulfur masque, and high frequency treatments to help prevent acne causing bacterial. Also, includes extractions as needed.

CHEMICAL PEEL

The ZO® Chemical Peel rejuvenates your skin with a facial peel followed by a neutralization and cleansing of your face. This is a lighter chemical peel with zero down time and minimal (if any) redness.

MICRODERMABRASION

A non-invasive exfoliating treatment that uses a diamond-tipped wand to gently remove dead skin cells, improve texture, and promote cell turnover. Ideal for dull skin, fine lines, and mild discoloration.

Specialty Facials

PERFECTLY POLISHED SPA TREATMENT

Body scrub massage including shoulders, décolletage, shoulders, arms, legs and back. Benefits include exfoliation, skin clarity, increased circulation, relaxation, skin smoothness and increased absorption of skin products like self-tanners.

PEEL & POLISH

This treatment begins with a dermaplane to gently exfoliate dead skin and vellus hair, followed by a targeted chemical peel to refine skin texture and boost cell turnover. A customized Hydrojelly mask soothes and nourishes, while a 15-minute facial massage promotes circulation and relaxation. Ideal for achieving smooth, radiant, and revitalized skin in one session.

READY TO GLOW

Our newest facial designed to help tighten your skin, promote neocollagenesis and help you glow. We start with a Forma Facial followed by a ZO® Chemical Peel. This is our power packed collagen production combo. To finish things off and brighten the skin, we use a ZO® Brightening mask enhanced by a refreshing Ice Globe massage.

RED LIGHT FACIAL

Restore your skin's natural glow. We start with a deep double cleanse and a gentle exfoliation to remove dull, dead skin cells. A superficial chemical peel follows to brighten the complexion and target early signs of aging. The experience is elevated with red light therapy, known to boost collagen production, reduce fine lines, combat acne, and improve skin texture. The result: a radiant, refreshed, and visibly revitalized complexion.

MICRONEEDLING

This minimally invasive procedure triggers the body's natural wound-healing response, stimulating collagen and elastin production. It helps reduce the appearance of acne scars, fine lines, enlarged pores, and overall skin texture irregularities.

Add-Ons

HYDROJELLY MASKS

A hydrojelly mask can be added to any treatment. Our available options vary by season, and each has different benefits. All are designed to keep your skin hydrated and diminish the appearance of fine lines and wrinkles. Ask your aesthetician which mask would be best for you.

DERMAPLANING

A manual exfoliation technique that removes dead skin cells and fine vellus hair (peach fuzz) using a sterile surgical blade. Leaves skin ultra-smooth, radiant, and better prepared for product absorption.

EXTRACTIONS

A targeted technique to safely remove clogged pores, blackheads, and impurities. Helps clear the skin, reduce breakouts, and improve overall texture and clarity.

ADVANCED HEALING TREATMENTS

GROWTH FACTOR

Growth factors help promote collagen and elastin production. You can add it to any facial or procedure.

PDRN

Derived from salmon DNA this treatment steps up your skin's healing process. Great for adding to microneedling and Morpheus8 procedures.

PRP

A natural regenerative treatment using your own blood's platelets to boost collagen, speed healing, and improve skin tone and texture. Ideal for fine lines, scars, and overall skin rejuvenation. Great for adding to microneedling and Morpheus8 procedures.
